DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 and 3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 2, the language "along an X-axis of the holder" is indefinite, since it is unclear as to what defines the "X-axis". The language "directed toward a fourth quadrant of the holder" is also indefinite for lacking point of reference.

Claim 3, the language "the inside end of the tie bolt" is indefinite, since the language "inside" is merely a relative term, there must also be a point of reference regarding how the "inside" is determined.

Allowable Subject Matter

Claims 1, and 4-8 are allowed.

Claims 2 and 3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Severson, Morgan, Jones, Keller, Tibbitts et al, and Birese all show inserts and/or shank mounting and locking features.
